#### **CLINICAL ROTATIONS**

##### **Sierra Tucson**

Located in the Santa Catalina foothills, the 160-acre campus offers a natural healing milieu. Comprehensive residential treatment includes a variety of conventional and complementary evidenced-based modalities for pain, trauma, mood, addiction, and eating disorders healing.

##### **Banner University Medical Center**

Fellows will provide addiction services for hospitalized patients to reduce hospital length of stay, reduce hospital readmissions, improve staff education on substance use disorders (SUD), and provide addiction-based discharge planning.

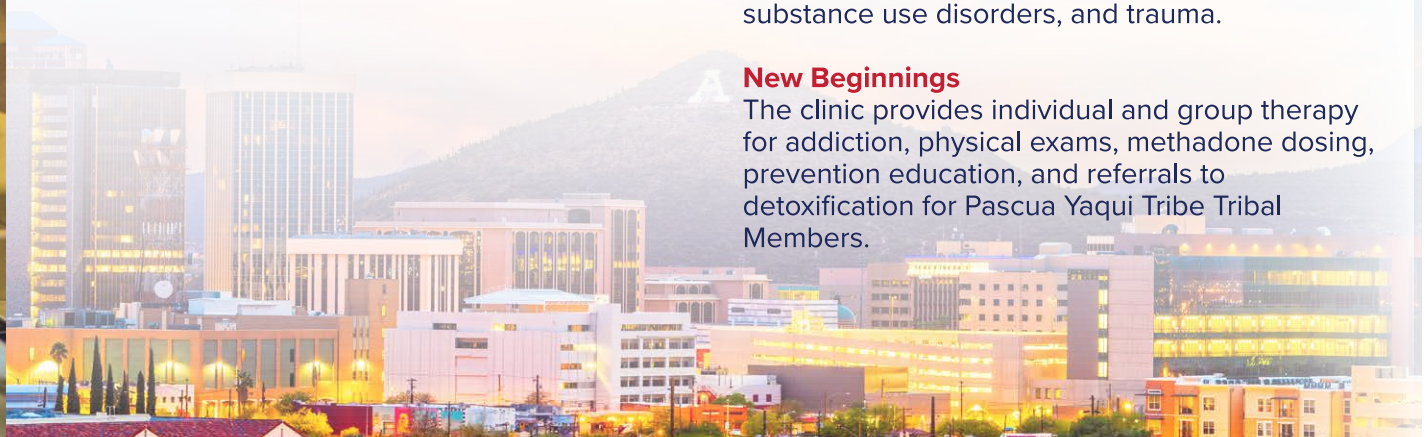

Fellows will provide addiction medicine consults to hospitalized patients at Banner UMC Main and South Campuses, which will include Substance Use Disorder assessments, substance withdrawal management, Medication Assisted Therapy recommendations (Buprenorphine, Methadone, Naltrexone, Acamprosate, etc), harm reduction education, and links to community addiction resources including medication management, therapy, rehabilitation, etc.

##### **CODAC**

What began as a grassroots drug prevention program has grown into a multi-faceted organization providing services across behavioral health care. CODAC's mission is to provide tools, support, and services to individuals, families, and communities so they may live with dignity, free from the harmful effects of mental illness, substance use disorders, and trauma.

##### **New Beginnings**

The clinic provides individual and group therapy for addiction, physical exams, methadone dosing, prevention education, and referrals to detoxification for Pascua Yaqui Tribe Tribal Members.

**Southern Arizona Veterans Administration Health Care System**

A large multi-site system of primary and specialty health care providing services to veterans who live in Southern Arizona. The system is anchored by a large medical-surgical hospital which provides emergency, intensive, and specialty care settings. A large rehabilitation and post-acute care service are also attached to the acute care hospital.

There is an inpatient detoxification unit with up to 8 beds an inpatient Addiction Medicine consult liaison service. The team assists with managing severe alcohol withdrawal, including delirium tremens, as well as opioid use disorder through detoxification and medication-assisted treatment.

This is a teaching service with medical students, and psychiatric, family medicine, and emergency medicine residents.

On property, a Mental Health Rehabilitation Residential Treatment Program provides four to six weeks of treatment in one of two tracks: substance use disorders or trauma.

In the fellow continuity clinic, fellows see recovery from early stages to sustained recovery.

Fellows treat various addictions, and co-morbidities. The clinic is Thursday morning with didactics in the afternoon.

**Elisa Gumm DO**, is the Program Director. She has passion for treating those with addictions, helping fellows develop their education and career.
